Understanding the real social architecture
Understanding the real social architecture

In order to change the course of human history so that we can have a true egalitarian society where the benefits of the social order are provided to all members of the population, we must recognize the true nature of the existing societies and base any solutions on that reality.

Otherwise we just change the label on the same old system.
Basic model describing the architecture of the oligarchic system.

The architecture of the oligarchic system.

1) Oligarchs

2) those who support the oligarchs, get paid off for their support, and who depend on the system for their livelihood.

3) those who are held captive by the oligarchic system.
Basic model describing the architecture of the oligarchic system.

In an tyrannical system such as a kingdom or empire, the categories are:

<table>
<thead>
<tr>
<th>Category</th>
<th>Description</th>
<th>Class</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oligarchs</td>
<td>King, aristocrats, wealthy and powerful</td>
<td>Subset of the Upper Class</td>
</tr>
<tr>
<td>Wealthy and powerful</td>
<td>Those who control the majority of the wealth and resources.</td>
<td>Upper Class</td>
</tr>
<tr>
<td>Supporters</td>
<td>Those whose livelihoods are based on providing goods and services for the oligarchs. e.g Merchants, religious figures, military.</td>
<td>Middle Class</td>
</tr>
<tr>
<td>Captives/Slaves</td>
<td>Population who produces low-skilled goods and services.</td>
<td>Lower Class</td>
</tr>
</tbody>
</table>
Basic model describing the architecture of the oligarchic system.

In an "democratic" system such as a republic the categories are:

<table>
<thead>
<tr>
<th>Category</th>
<th>Description</th>
<th>Class</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oligarchs</td>
<td>Heads of corporations, heads of governmental institutions, wealthy and powerful</td>
<td>Subset of the Upper Class</td>
</tr>
<tr>
<td>Wealthy and powerful</td>
<td>Those who control the majority of the wealth and resources.</td>
<td>Upper Class</td>
</tr>
<tr>
<td>Supporters</td>
<td>Those whose livelihoods are based on providing goods and services to the oligarchs. e.g Merchants (corporations), administrators of social institutions such as education, military, police, religion, etc.</td>
<td>Middle Class</td>
</tr>
<tr>
<td>“the poor”</td>
<td>Population who produces low skilled goods and services.</td>
<td>Lower Class</td>
</tr>
</tbody>
</table>

How does the system work? No one taught me how to see this. They taught me it was democracy. It is too complicated for me to understand so I give up trying.

I leave the responsibility for control of the system up to the “experts” and “leaders” of the social control institutions. They tell me what is right.

How does the system of control work?

**Oligarchs**

**Direct control**

1. Owners/Executives of corporations/businesses/financial institutions
2. Hold key positions in government and religion

**1st Level of Indirect control**

- Control those who hold key positions of power in corporations (non-democratic, tyrannical institutions).
- Control those who hold key government offices of power (non-democratic, tyrannical institutions).

**2nd Level of Indirect control**

Control of people managing and implementing social/government systems

**3rd Level of Indirect control**

Control of general population

---

**Methods of Control**

- **Cultural Programming – A form of mind control**
  - This is accomplished and maintained through social institutions e.g., education, media. This creates “The Believers.” Need minimum of 25% in this category to be fully indoctrinated in the system in order to maintain control of the entire system.
  - This is the best and most effective method of control. No rewards or punishments needed. If you can control what a man thinks you don’t have to worry about his actions.

**Rewards for obedience**

- Power and prestige
- Economic benefits:
  - Money
  - Goods
  - Services
- Social “acceptance,” emotional and physical safety

**Punishments for disobedience**

- Threats and intimidation:
  - Economic threats:
    - Professional
    - Financial
  - Threats against individual
  - Threats against family
- Physical Threats:
  - Violence against person including death
  - Violence against family including death
  - Imprisonment of person by manipulation of legal system
  - Imprisonment of family by manipulation of legal system
- Social condemnation, fear, results of being outcast.
